~~84.99 \$US~~

What you'll learn

- ✓ You will learn Python from zero to advanced.
- ✓ You will learn how to make desktop programs, web apps, data apps, APIs, web scrapers, and more.
- ✓ You will get help from the instructor and the teaching assistant when you get stuck.
- ✓ You will build 10 real-world applications with Python.
- ✓ You will learn other programming tools and techniques such as SQL, HTML, deployments, debugging, and more.
- ✓ You will be able to chat with other fellow students in the course chat forum.

Course content

22 sections • 352 sessions • 33h 8m total length

Chapter 1: Welcome

Chapter 2: Getting Started with Python

Chapter 3: The Basics - Data Types

Chapter 4: The Basics - Operators with Data Types

Chapter 5: The Basics - Functions and Conditionals

Chapter 6: The Basics - Processing User Input

Chapter 7: The Basics - Loops

Chapter 8: Putting the Pièces Together: Building a Program

Chapter 9: List Comprehensions

Chapter 10: More About Functions

Chapter 11: File Processing

Chapter 12: Modules

Chapter 13: Using Python with CSV, JSON, and Excel Files

Chapter 14: Numerical and Scientific Computing with and Numpy

Chapter 15: App 1: Web Mapping with Python: Interactive Mapping of Population and Volcanoes

Chapter 16: Fixing Programming Errors

Chapter 17: Image and Video Processing with Python

Chapter 18: App 2: COntrolling the Webcam and Dètcting Object

Chapter 19: Interactive Data Visualisation with Python and Bokeh

Chapter 20: App 3(part 1): Data Analysis and Visualisation with Pandas and Matplotlib

Chapter 21: App 3(part 2): Data Analysis and Visualisation - in Browser Interactive Plots

Chapter 21: App 4: Web Development with Flask - Build a Personal Website

Chapter 22: Building Desktop Graphical User Interfaces (GUI) with Python

Chapter 23: Interacting with Databases

Chapter 24: App 5: GUI apps and SQL: Build a Book Inventory Desktop GUI Database App

Chapter 25: Object - Oriented Programming (OOP)

Chapter 26: App 6: MOBILE App Development: Build a Feel-Good App

Chapter 27: Making an Android APK File from the Kivy App

Chapter 28: Web Scraping with Python & Beautiful Soup

Chapter 29: App 7: Web Scraping - Scraping Properties for Sale from the Web

Requirements

- A computer (Windows, Mac, or Linux).
- No prior knowledge of Python is required.
- No previous programming experience needed.

Who this course is for:

Those with no prior knowledge of Python.

Those who know Python basics and want to master Python

Everything about

Courses Details

This courses includes

- 🎥 32.5 hours on-demand video
- 📄 82 article
- 💻 145 coding exercises
- ♾️ Full lifetime access
- 📱 Mobile and TV access
- 📜 End of training certificate
